

## TURTAN ES 400

**Core Points :** Versatile general purpose replacement syntan.

**Product Description :** Phenol sulphone derivatives.

### Specifications

Appearance	: Light Brown Powder
Total Solid (%)	: min. 95
pH (1:10)	: 3,0 – 4,0
Light fastness	: Good

### Applications

**Turtan ES 400** is really versatile and It is suitable over a range of leather types , has good buffing properties, it performs particularly well on all tight articles and semi-chrome. **Turtan ES 400** has low astringency and gives leathers with a full and round touch, good fiber density and good grain tightness. **Turtan ES 400** is used in combination with nearly all other syntans and resins during retanning where it helps to disperse and distribute those equally in the pelt. **Turtan ES 400** is an important product for the manufacturing of full vegetable leathers where partially substitute vegetable extracts during the tanning. It helps to penetrate and distribute the extracts and leathers results with a nice pale color which is an important issue.

Leathers treated with **Turtan ES 400** show :

- A fine grain.
- Full and mellow throughout.
- Clean and level shades.

Recommended usage of **Turtan ES 400** :

- Vegetable tanning : 5 – 10 % on pelt weight
- Re-tanning : 2 – 8 % on shaved weight
